C            Am            F            G            C  
Oceans apart day after day and I slowly go insane  
             Am            F            G            Am  
I hear your voice on the line But it doesn't stops the pain  
             F  
If I see you next to never  
Am            F  
How can we say forever

## Refrain

C            G            Am  
Wherever you go, what ever you do  
             F            C  
I will be right here waiting for you  
             G            Am  
Whatever it takes or how my heart breaks,  
             F            Am  
I will be right here waiting for you

C            Am            F  
I took for granted all the times  
             G            C  
That I thought would last somehow  
             Am            F  
I hear the laughter I taste the tears  
             G            Am  
But I can't get near you know  
             F            Am  
Oh Can't you see it baby  
             F  
You got me going crazy

C            G            Am  
Wherever you go, what ever you do  
             F            C  
I will be right here waiting for you  
             G            Am  
Whatever it takes or how my heart breaks,  
             F            G            Dm  
I will be right here waiting for you

## Pont
